Confidential Communication for Internal Deliberations Only. Attorney-client Privilege. Do Not Distribute Outside EPA.

Due to the FOIA and the Reckitt case, I have been going through and scanning my rodenticide files. As I am doing the anticoagulants first and doing them alphabetically, I have found a number of items related to Brodifacoum that might be of interest and perhaps useful. I have attached some of them. (I wish that I had proofread some of my items better than I did, especially the one on human fatalities.)
